

Product Evaluation Request Form

e-Watch, Inc. supports requests for evaluation equipment on a case-by-case basis. Unfortunately, all requests cannot be honored. Use of evaluation equipment is authorized for 21 days. Once a request has been granted, we require the requestor to submit an evaluation PO to e-Watch for the equipment. The PO should state that e-Watch is authorized to bill for the amount indicated if the equipment is not returned within the 21-day evaluation period.

e-Watch will ship the kit with new or "like new" equipment within 30 business days of receipt of the PO. Should the equipment be required sooner, special arrangement will have to be made with the Program Manager. Equipment will be shipped UPS ground. Other shipping arrangements can be made.

The kit, PSK-101, sells for \$4663.12 (FOB San Antonio) and contains the following items:

- 2ea Deluxe IP smart day camera
- 1ea Entry-level IP smart encoder
- 1ea e-Watch Software Package
